

Master of Education in Classroom Leadership with a specialization in Virtual Teaching

Want to advance your career as an educator? Interested in growing your skills and your income? Get ready to do all of that and make a bigger difference in your students' lives with an online Master of Education in Classroom Leadership with a specialization in Virtual Teaching.

The Virtual Teaching specialization includes four courses within the M.Ed. in Classroom Leadership program needed to earn a South Carolina endorsement in online teaching. These courses provide hands-on tools and strategies for leveraging digital approaches to learning regardless of the environment. The coursework equips you with the ability to integrate technology-enhanced practices in your face-to-face classroom or be prepared for fully online instruction. The coursework emphasizes a Christian ethic of care – focused on providing digitally equitable and accessible solutions for students.

With our online MEDCL program, you'll gain real, hands-on experience of concepts you'll use every day in your classroom:

- Instructional design theories
- Evidence-based teacher leader practices
- Instructional strategies and tools
- Culturally responsive teaching and digital citizenship
