

Project Read® Curriculum

KINDERGARTEN

The Project Read® Kindergarten curriculum by Language Circle Enterprises® focuses on decoding, encoding, and reading comprehension strategies, using multisensory activities and direct instruction to present a systematic approach to phonics.

Research-based and student-tested activities are specifically tailored to kindergarten children and allow students to practice phonemic awareness, sound/symbol recognition, word building, sentence composition, story reading, and kinesthetic/tactile memory. This curriculum builds a strong foundation for reading.

MATERIALS

- ★ Bridge to Reading Guide
- ★ Phonics 1 Guide
